2015 Disclosure Report and Methodological note Serbia

Dear,

Below we would like to give you further information for understanding the content of the report:

Term	Definition
Corporate scope	GSK will issue one report for each country showing all Transfers of Value made
	to HCPs / HCOs in that country by GSK, GSK Consumer Healthcare, and by ViiV
	Healthcare.
Reporting date	GSK has defined two types of Transfers of Value for Reporting Date purposes:
	- a <i>Monetary Transfer of Value</i> is a payment of money made to an HCP/HCO
	by GSK either directly or through an intermediary (for example, fees for
	service). The Reporting Date for these Transfers of Value will be the actual
	payment date, irrespective of when the event happened (for example, when a
	consultancy fee is paid, not when the work took place).
	- a Non-monetary Transfer of Value is a benefit received from GSK either
	directly or through an intermediary without a monetary payment (a flight or a
	congress registration fee paid to a travel agent or events organiser, for
	example). The Reporting Date for these Transfers of Value will be the event
	date (for example, when the congress took place).
Value Added Tax	GSK has taken the decision to report values including VAT wherever possible
	due to the complexity of VAT regimes around Europe and the inconsistency of
	whether VAT may or may not be reimbursable depending on where the
	transaction took place and the country of residency of the HCP or HCO. All
	other taxes are included in the reported values
Currency	GSK records Transfers of Value in the currency in which the transaction took
Currency	•
conversions	place. The report will show all values in the currency of the country in which
	the report is made.
HCPs employed by	GSK will not report payments made to HCPs who are employed by GSK as staff
GSK	members. GSK considers that it would be inappropriate to the disclose an
	employee's salary, bonus, expenses and benefits.
Novartis	On 2 March 2015, GSK and Novartis completed a three part transaction, as a
methodology	result of which GSK acquired Novartis' global Vaccines business (excluding
	influenza vaccines); created a new world leading Consumer Healthcare joint
	venture with Novartis; and divested its Oncology business to Novartis.
	In respect of the Oncology business transferred to Novartis, we are not
	disclosing any Transfers of Value for which the Reportable Date is after 2
	March 2015.
